SHIVAM PANDEY

MERN Stack Developer

E 6386000621 | shivam6386000621@gmail.com | https://www.linkedin.com/in/shivam-pandey2006
https://github.com/Shivam-75 | GIDA, Gorakhpur (UP)

SUMMARY

Enthusiastic and self-motivated MERN Stack Developer with strong foundational knowledge of MongoDB, Express.js, React.js, and Node.js. Recently completed multiple hands-on projects involving full-stack web development, responsive UI design, and RESTful API integration. Passionate about creating clean, user-friendly interfaces and writing efficient, maintainable code. Proficient in HTML, CSS, JavaScript, Git, and modern development tools. Eager to join a dynamic team where I can grow, contribute, and build impactful web applications.

PROJECTS

Banking Management System

🔗 https://github.com/Shivam-75

CSS3 | React JS | Node JS | Express JS | MongoDB | Motion | Git | GitHub

- Developed a full-stack banking management system using the MERN stack to manage users, accounts, and transactions.
- Implemented secure user authentication and role-based access control for admins and customers.
- Designed a responsive dashboard UI with React.js and integrated MongoDB for real-time data storage and retrieval.
- Enabled features like balance check, fund transfer, transaction history, and account management with backend logic using Node.js and Express.

Pathology Booking and Billing System

🔗 https://github.com/Shivam-75

CSS3 | React JS | Node JS | Express JS | MongoDB | Motion | Git | GitHub | ChatGPT | Socket IO | Figma

- Built a web-based system for booking pathology tests and generating digital bills using the MERN stack.
- Integrated a test catalog with categories, pricing, sample types, and report delivery timelines using MongoDB.
- Enabled real-time booking management, invoice generation, and status tracking through a user-friendly React UI.
- Implemented admin panel for managing test listings, bookings, and billing records securely with Node.js and Express.

EDUCATION

INTERMEDIATE

SKSD Public School

📅 08/2020 - 03/2022   📍 Siswa bazar, Maharajganj

Bachelor of Computer Applications

ITM College of Management

📅 08/2023 - 08/2026   📍 GIDA, Gorakhpur

LANGUAGES

English   Proficient ●●●●○   Hindi   Proficient ●●●●○

KEY ACHIEVEMENTS

Full-Stack Web App Development
Built and deployed full-stack web apps using the MERN stack with RESTful APIs and database integration.

Responsive UI with React
Built and deployed full-stack web apps using the MERN stack with RESTful APIs and database integration.

Real-Time Features Integration
Implemented real-time chat and live notifications using Socket.IO in personal projects.

Code Management with Git & GitHub
Used Git and GitHub for version control, collaboration, and maintaining clean, trackable codebases.

SKILLS

HTML5, CSS3, JavaScript, React JS, Node JS, Express JS, MongoDB, MySQL, Motion, ChatGPT, Socket IO, Git, GitHub, Problem Solving, Communication, Figma

INTERESTS

Building Scalable Web Applications

I am deeply interested in creating high-performance, scalable web applications that solve real-world problems. Exploring architecture patterns, optimizing backend logic, and handling large datasets excite me.

Interactive Frontend Design

I enjoy crafting responsive and engaging user interfaces using React.js and animation tools like Framer Motion. I'm passionate about improving user experience through clean design, accessibility, and performance tuning.

STRENGTHS

Strong Problem-Solving Skills
Capable of analyzing complex issues and implementing efficient, logical solutions in both frontend and backend development
